PROFILE

Passionate and dedicated Laravel Developer with a deep understanding of the Laravel framework, including its core features such as Eloquent ORM, Blade templating, and Artisan commands.

I approach development with a logical mindset, focusing on clean, maintainable code and efficient problem-solving. Eager to leverage my skills and expertise in Laravel to build robust, scalable web applications that adhere to best practices. Committed to delivering high-quality code and innovative solutions that meet client needs and exceed expectations.

EXPERIENCE

Laravel Developer

Brandcraft, Remote

January 2024 – Present

Developed and maintained scalable e-commerce applications using Laravel, ensuring optimal performance and security.

Integrated third-party APIs for payment gateways, shipping, and customer management systems.

Collaborated with front-end developers to implement responsive UI/UX designs using React.js.

Software Tester (Intern)

Destion Innovations, Remote

June 2023 – December 2023

Performed manual testing on web and mobile applications to ensure functionality and compatibility.

Created test cases and performed regression testing in an Agile environment.

Documented defects using JIRA and worked closely with the development team for resolution.

PROJECTS

Personal Portfolio Website

- Create a responsive personal portfolio website to showcase my projects and skills.
- Key Features: Portfolio items, contact form, and responsive design.
- Skills Used: React.js, Tailwind CSS.

<https://sahla.vercel.app/>

Institution Collaboration & Management System

- Created a responsive Institution management system as a helping hand for teachers & students in their campus related and learning activities.
- Key Features: Admin Teachers & students-dashboard, authentication.
- Skills Used: React.js, API Integration, Tailwind CSS.

<https://campuslink-next.vercel.app/>

Task Management Application

- Build a task management application, where users can perform create, and organize tasks within different projects.
- Key Features: CRUD Operation.
- Skills Used: React.js, Bootstrap.

<https://todoapp-sahla.vercel.app/>

Netflix Clone Application

- Developed a Netflix clone application using React.js, showcasing proficiency in building dynamic user interfaces. Demonstrated strong skills in component-based architecture and handling asynchronous data flows with React hooks.
- Key Features: State management, responsive design and API integration.
- Skills Used: React.js, Bootstrap.

<https://netflix-sooty-omega.vercel.app/>

E-Commerce Platform

- Develop a fully functional e-commerce platform where users can browse products, add them to a cart, and complete purchases.
- Key Features: User registration and login, product catalog, shopping cart, order processing, payment integration, and admin panel for managing products.
- Skills Used: Laravel, Blade templates, database design, RESTful API, payment gateway integration, and session management.

EDUCATION

BSc Computer Science

MAMO COLLEGE

2021 - 2024

CERTIFICATIONS

Coursera certificates:
